OLEOMARGARINE

PRODUCTION DURING JUNE 1938  
 WITH COMPARISONS

According to reports of oleomargarine manufacturers to the Bureau of Agricultural Economics, the amount of oleomargarine produced in the United States during the month of June 1938 was nearly 27,500,000 pounds. This amount was about 175,000 pounds less than that manufactured during June 1937 but approximately 6,000,000 pounds more than the 5-year (1933-37) average.

The proportion of animal and vegetable product as compared with vegetable and nut showed a slight increase above May of this year; the ratio of animal and vegetable being 12.5 and vegetable and nut 87.5, which compares with 12 and 88 for May.

The proportion of uncolored and colored continues to remain constant at 99.6 to 0.4.
